20TH ANNUAL SKIN OF COLOR SOCIETY SCIENTIFIC SYMPOSIUM
March 7, 2024 | San Diego, CA

Dear Skin of Color Society Members, Colleagues, Supporters, and Guests,

We are thrilled to warmly welcome you to the 20th Annual Skin of Color Society Scientific Symposium, "Pathways to Equity: Advancing Advocacy, Research, and Clinical Excellence."

Today's landmark SOCS Scientific Symposium celebrates two decades of excellence, progress, research, learning, and innovation in the field of skin of color dermatology.

Our well-rounded scientific program features esteemed experts and emerging researchers who will share their perspectives on a wide spectrum of topics, including melanocyte transplantation, hidradenitis suppurativa, and the molecular basis of itch in skin of color.

Our keynote address by Aletha Maybank, MD, MPH, Chief Health Equity Officer of the American Medical Association, will impart insights into advocacy and health equity.

We will engage in fascinating panel discussions on challenging clinical cases and dermatologic care through art, and a variety of oral abstract presenters will share their latest research with you.

Following the Symposium, we invite you to join us as we jubilantly celebrate "SOCS at 20: Past, Present and Future," with leadership tributes, delicious refreshments, great music, SOCS-style camaraderie and fun!

We hope that you enjoy and benefit from today's program.

We thank you for your participation today and for being a part of the Skin of Color Society.

Warm regards,

Nada Elbuluk, MD, MSc, FAAD
SOCS Scientific Committee Co-Chair

Chere Lucas Anthony, MD, FAAD
SOCS Scientific Committee Co-Chair

#SOCS20TH #SOCSSCIENTIFICSYMPOSIUM
 #SKINOFCOLORSOCIETY #PATHWAYSTOEQUITY

Dear SOCS Members, Colleagues, Supporters, and Guests,

Welcome to the 20th Annual Skin of Color Society Scientific Symposium!

We are delighted to have you with us on this milestone occasion, which marks the 20th anniversary of the Skin of Color Society. Founded by Dr. Susan C. Taylor, with the support of many other esteemed SOCS Founding Members who are also here with us today, SOCS has evolved into the global leader in skin of color dermatology—dedicated to advancing excellence in the specialty through research, education, mentorship and advocacy.

Today's gathering convenes SOCS leaders, members, researchers, dermatologists-in-training, medical students, dermatology colleagues, and industry supporters from around the world.

This year's Symposium, themed "Pathways to Equity: Advancing Advocacy, Research, and Clinical Excellence," is a testament to our longstanding commitment to the intersection of science, innovation, and inclusion. As is our tradition with the SOCS Scientific Symposium, we are excited to showcase an array of distinguished experts and emerging leaders in the field of skin of color dermatology.

Our SOCS Scientific Committee Co-chairs, Nada Elbuluk, MD, MSc, FAAD, and Chere Lucas Anthony, MD, FAAD, along with their dedicated committee, have crafted an exceptional program, which I trust you will find highly beneficial and enjoyable.

We extend a special note of gratitude to our sponsors, whose generous support has made this Symposium possible, as well as other major SOCS initiatives and programs.

SOCS has accomplished so much over the past year, thanks to the contributions of our members and collaborators who have passionately worked with us to fulfill our mission.

In celebration of our 20th anniversary, we cordially invite you to join us at our special reception from 5:45 PM to 9:00 PM following the Symposium. "Celebrating SOCS at 20: Past, Present & Future" will provide an opportunity to reflect on our remarkable journey, featuring founders, past presidents, and a glimpse into the future of SOCS.

For those not yet part of our vibrant organization, I invite you to join SOCS and become a part of the important work we do. To our current members, I encourage you to deepen your involvement in the coming year.

It has been my great honor to serve as your President over the past year, and I look forward to staying in touch with you.

Thank you for joining us today, and for your ongoing commitment to SOCS.

Sincerely,

Andrew F. Alexis, MD, MPH, FAAD

MEETING HOST

Skin of Color Society
1932 S. Halsted St., Suite 413
Chicago, IL 60608 USA
Tel: 1- 630-578-3991
info@skinofcolorsociety.org

OFFICIAL LANGUAGE English

CONFERENCE PURPOSE

Facilitating a platform for the exchange of information related to skin of color, the Symposium aims to unite professionals, including international colleagues, residents, and research fellows. This event will feature presentations on cutting-edge research, the sharing of valuable experiences, and collaborative discussions steering the future trajectory of dermatology's special interest in skin of color.

TARGET AUDIENCE

Who will benefit from attending?

- I Dermatologists
- I Dermatology Residency Programs
- I Physicians with an interest in skin of color
- I Residents, fellows, medical students with an interest in skin of color

WEATHER The average maximum daytime temperature in early March in San Diego, CA is 67°F (19°C), while the average minimum temperature is 54°F (12°C).

MEETING ATTIRE The attire for both the educational session and social event is business casual.

PERSONS WITH DISABILITIES

The Skin of Color Society fully complies with the legal requirements of the Americans with Disabilities Act (ADA) and the rules and regulations thereof.

CME The meeting is not sanctioned for CME/PRA Category 1 Credits. However, the meeting will comply as much as possible with the policies and best practices of the Accreditation Council for Continuing Medical Education. All individuals in a position to control the content of the activity, including speakers and authors, moderators, and planning committee members, will properly disclose relevant financial relationships with any commercial interests pertinent to their talk or the subject of the meeting.

CERTIFICATES OF ATTENDANCE

Certificates of attendance will be issued and delivered via email to all confirmed attendees at the conclusion of the meeting.

MEETING RECORDING This meeting is being recorded. Recordings will be available for future reference at SOCS DEEP, <https://deep.skinofcolorsociety.org/>.

FACULTY

Maggi Ahmed, MD, PhD

*Dermatology Resident, Department of Dermatology
University of Massachusetts Medical School*

INVITED SPEAKER | *Melanocyte Transplantation Plus Topical JAK Inhibitor or Tacrolimus for Treatment of Vitiligo: A Randomized Comparative Study*

Dr. Ahmed is an internationally trained dermatology consultant who has made original contributions of major significance to the field. Her work has led to a greater understanding of surgical management of vitiligo and the immunological underpinnings for successful long-term surgical outcomes. She has successfully earned her clinical and translational PhD degree in dermatology, in surgical grafting of vitiligo, from the University of Massachusetts Medical School. Her areas of interest include procedural dermatology, Mohs surgery and laser. Dr. Ahmed's work has developed cutting-edge surgical treatments for patients with pigmentary skin disorders. Due to the significant impact of her work, she received the Skin of Color Society Research Grant Award, among other awards. Her original findings have appeared in leading, peer-reviewed journals in the field. Dr. Ahmed is an editorial reviewer for multiple national and international dermatology journals.

Andrew F. Alexis, MD, MPH, FAAD

*Vice-Chair for Diversity and Inclusion Department of Dermatology & Professor of Clinical Dermatology,
Weill Cornell Medical Center
President, Skin of Color Society (2023-2024)*

PRESIDENT

Dr. Alexis is the Vice-Chair for Diversity and Inclusion for the Department of Dermatology and Professor of Clinical Dermatology at Weill Cornell Medical College in New York City. He is the former Chair of the Department of Dermatology at Mount Sinai Morningside and Mount Sinai West. Having served as Director of the first-of-its-kind Skin of Color Center for over 15 years, his work has helped to advance patient care, research, and education pertaining to dermatologic disorders that are prevalent in populations with skin of color.

Dr. Alexis has published more than 100 articles in peer-reviewed journals including the British Journal of Dermatology, Journal of the American Academy of Dermatology, and JAMA Dermatology among others. He has co-edited two textbooks and authored over 10 book chapters. Dr. Alexis is a frequent lecturer at national and international conferences and has been invited as a Visiting Professor or Grand Rounds speaker at many prestigious academic institutions. He currently serves as President of the Skin of Color Society and is a member of the Board of Directors of the Scarring Alopecia Foundation.

Victoria Barbosa, MD, MPH, MBA, FAAD

*Associate Professor of Medicine, University of Chicago Medicine
President-Elect, Skin of Color Society (2023-2024)*

INVITED SPEAKER | *SOCS Turns 20: Honoring Our Past, Imagining Our Future*

Dr. Barbosa is an Associate Professor of Dermatology at the University of Chicago, where she directs the Hair Loss Program and leads Diversity, Equity, and Inclusion efforts in Dermatology. With expertise in alopecia and skin conditions in people of color, she is a renowned lecturer and author, co-editing a textbook on skin of color dermatology and co-authoring a skincare book. Previously, she held leadership roles at L'Oréal, including Vice President of Research and Development, establishing the L'Oréal Institute for Ethnic Hair and Skin Research. As founder of Millennium Park Dermatology, she was consistently named a Top Doctor by Chicago Magazine. Dr. Barbosa is dedicated to mentoring future physicians, serving on the Pritzker School of Medicine Admissions Committee and mentoring medical students and residents. She is President-Elect of the Skin of Color Society, Vice President of the Illinois Dermatological Society, and has held leadership positions in other dermatological organizations. Dr. Barbosa earned her B.A. from Harvard, M.D. cum laude from Yale, completed residencies at Yale and Johns Hopkins, and holds an M.P.H. from Johns Hopkins and an M.B.A. from Kellogg School of Management.

Angel S. Byrd, MD, PhD

Associate Professor, Department of Dermatology
Howard University College of Medicine

INVITED SPEAKER | *Elucidating the Role of Autoantibodies in Hidradenitis Suppurativa*

Dr. Byrd was born and raised in Edwards and Jackson, Mississippi. She obtained her BS ('04) from Tougaloo College in Tougaloo, Mississippi and MD, PhD ('16) from Warren Alpert Medical School of Brown University in Providence, Rhode Island. She completed an Ethnic Skin Postdoctoral Fellowship at Johns Hopkins University School of Medicine (JHUSOM) under the direction of Dr. Ginette Okoye. Currently, she is an Associate Professor at Howard University College of Medicine and Adjunct Assistant Professor at JHUSOM (Departments of Dermatology) where her work centers on the establishment of tissue biobanks to understand the immunopathological mechanisms contributing to skin of color diseases, particularly among African-American patients with Hidradenitis suppurativa. Her main research focus is elucidating the unreported roles of neutrophils and the innate immunity in the induction of local and systemic immune dysregulation. Dr. Byrd leads multidisciplinary collaborative projects with the overarching goal of establishing a scientifically-driven approach to treatment options for patients suffering from these debilitating diseases. Of much importance, she continues to pay-it-forward along her journey devoting time to training and investing in the next generations of scientists and physician scientists as well as engaging in community outreach. She has contributed to the scientific literature, given numerous lectures, national/international talks, and has been featured on the BET 33rd Annual UNCF An Evening of Stars® international program, recognizing her as one who is "changing the face of science, one mind at a time."

Seemal R. Desai, MD, FAAD

President, Medical Director, Innovative Dermatology
Clinical Assistant Professor of Dermatology, UT Southwestern

MODERATOR | *Challenging Clinical Cases*

Dr. Desai is a Diplomate of the American Board of Dermatology, and a Board Certified Dermatologist. He graduated with honors from Emory University. He received his medical training at Morehouse School of Medicine in Atlanta, Georgia, and received his Doctor of Medicine degree with Magna Cum Laude with honors. Following medical school, Dr. Desai completed his dermatology residency at The University of Alabama at Birmingham where he was Chief Resident.

Dr. Desai has been active on a local, state, and national level with numerous medical organizations, and is also actively involved in teaching and mentoring medical students and residents. He is the Founder & Medical Director of Innovative Dermatology, a state-of-the-art private practice in the Dallas area, and also serves as Clinical Assistant Professor of Dermatology at The University of Texas Southwestern Medical Center. Dr. Desai is a Past President of the Skin of Color Society and currently serves as AAD President-Elect. Upon assuming the Presidency of AAD in 2024, Dr. Desai will be the youngest dermatologist to serve in that capacity.

Nada Elbuluk MD, MSc, FAAD

Associate Professor of Clinical Dermatology, University of Southern California
Director, Skin of Color Program & Pigmentary Disorders Clinic
Director, Dermatology Diversity & Inclusion Program
Director of Curriculum Equity, Keck School of Medicine

CO-CHAIR

Dr. Elbuluk is a board-certified dermatologist and Associate Professor at the USC Keck School of Medicine, Department of Dermatology. She is the founder and director of the USC Skin of Color and Pigmentary Disorders Program and Fellowship. She also serves as the Director of the Dermatology Diversity and Inclusion Program, as well as the Director of Curriculum Equity for the Keck School of Medicine. Dr. Elbuluk's clinical and research interests include general medical and cosmetic dermatology, skin of color conditions, and pigmentary disorders. She is a Diplomate of the American Academy of Dermatology, a current board member of the Women's Dermatologic Society and Global Vitiligo Foundation, past board member of the Skin of Color Society, and holds professional memberships with the American Society for Dermatologic Surgery, the International Peel Society, the National Medical Association, and the American Medical Women's Association.

Rick Guidotti

Founder and Director, Positive Exposure

PANELIST | Art and Medicine: The Intersection of Science and Humanity

Rick Guidotti an award-winning photographer, has spent more than twenty-five years collaborating internationally with nonprofit organizations, hospitals, medical schools, educational institutions, museums, galleries, advocacy groups and communities to effect a sea-change in societal attitudes towards individuals living with genetic, physical, behavioral or intellectual difference.

Rick's work has been published in newspapers, magazines, and journals as diverse as Elle, GQ, People, the American Journal of Medical Genetics, The Lancet, Spirituality and Health, the Washington Post, Atlantic Monthly and LIFE Magazine.

Rick is the founder and director of POSITIVE EXPOSURE, a non-profit organization that creates a more inclusive world for individuals and communities at risk of stigma and exclusion through photography, film, educational programs, and advocacy.

Byron Kim, BA

Senior Critic, Yale School of Art

PANELIST | Art and Medicine: The Intersection of Science and Humanity

Byron Kim is a distinguished figure in the art world, serving as Senior Critic at the Yale School of Art and Co-director of the Yale Norfolk School of Art. With a wealth of experience, Kim contributes to the artistic discourse and education, shaping the next generation of artists at Yale. His multifaceted role underscores his commitment to both critique and mentorship within the realm of contemporary art.

Shawn Kwatra, MD, FAAD

Associate Professor of Dermatology and Oncology

Director, Johns Hopkins Itch Center

Department of Dermatology, Johns Hopkins University School of Medicine

INVITED SPEAKER | Molecular Basis of Itch in African Americans

Dr. Kwatra is an Associate Professor of Dermatology at the Johns Hopkins University School of Medicine in Baltimore, MD, USA and Director of the Johns Hopkins Itch Center. His areas of clinical expertise include chronic pruritic diseases including prurigo nodularis, atopic dermatitis, and chronic pruritus of unknown origin. He runs a basic and translational research laboratory along with a clinical trials unit and is funded by the National Institutes of Health.

Chere Lucas Anthony, MD, FAAD

Rendon Center for Dermatology and Aesthetic Medicine

Voluntary Faculty, Department of Dermatology, University of Miami

CO-CHAIR

Dr. Lucas Anthony is a board-certified dermatologist and voluntary faculty at the University of Miami Miller School of Medicine, Department of Dermatology. She is in private practice at the Rendon Center for Dermatology and Aesthetic Medicine in Boca Raton, Florida. Dr. Lucas Anthony blends medical dermatology, cosmetic dermatology and research. She is involved in clinical trials for pigmentary disorders, acne, atopic dermatitis, psoriasis and cosmetics through the Skin Care Research division. Dr. Lucas Anthony is a Diplomate of the American Academy of Dermatology, Skin of Color Society past board member and past chairs of the SOCS membership committee, LMS DEEP learning lecture platform and Women's Dermatologic Society Ethics Committee.

Aletha Maybank, MD, MPH

Chief Health Equity Officer, SVP
American Medical Association

KEYNOTE SPEAKER | *Advancing Equity in Health Care*

Dr. Maybank is a pediatrician and preventive medicine physician, a public health professional, and a Senior Vice President within the American Medical Association. As Chief Health Equity Officer, she is the founding leader for the AMA's Center for Health Equity, and a recognized speaker, writer, and expert on health equity and racial justice. In these capacities, she is influencing the embedding of equity throughout the AMA Enterprise and across the healthcare ecosystem. Dr. Maybank uses her platform to make injustice visible across our health systems and country, with emphasis upon solutions that honor the legacy of our ancestors while preserving our desires for rest and joy. She has won numerous awards for her groundbreaking efforts.

Lynn J. McKinley-Grant, MD

Associate Professor of Dermatology, Howard University College of Medicine
Former Vice Chair of Diversity and Community Engagement in Dermatology, Duke University School of Medicine

MODERATOR | *Art and Medicine: The Intersection of Science and Humanity*

Dr. McKinley-Grant is an Associate Professor of Dermatology at Howard University College of Medicine, board-certified in Dermatology and Internal Medicine. She earned her M.D. from Harvard Medical School and completed postdoctoral training at Boston Medical Center and New York University. As a Molecular Biology Fellow at NIH, she focused on early signs of systemic disease in black and brown skin. With over 25 years of experience, she has treated diverse populations, emphasizing accurate clinical assessments. Dr. McKinley-Grant integrates arts into medical curricula, promoting empathy and cultural competency. She received awards for Arts and Humanities from the American Academy of Dermatology and is actively involved in non-profit arts education.

Amy J. McMichael, MD, FAAD

Professor of Dermatology
Wake Forest University School of Medicine

PANELIST | *Challenging Clinical Cases*

Dr. McMichael is a Philadelphia native who received her medical degree from the University of Pennsylvania School of Medicine. She completed Internship at Thomas Jefferson University Hospital in Philadelphia and her Dermatology residency training at the University of Michigan School of Medicine. Dr. McMichael has been a faculty member at Wake Forest Baptist Medical center since 1994. She is currently Professor of the Department of Dermatology at Wake Forest School of Medicine. She also served as the Residency Director of the department for 12 years. Dr. McMichael's clinical and research interests include: hair and scalp disorders and skin of color. She is a fellow of the American Academy of Dermatology and a past President of the Skin of Color Society and past Chair of the National Medical Association Dermatology Section. She has served as Vice President of the Women's Dermatologic Society and Secretary/Treasurer of the North American Alopecia Research Society. She currently serves as a member of the Board of the American Academy of Dermatology. She is co-editor of the text *Hair Diseases: Medical, Surgical, and Cosmetic Treatments*, *Fitzpatrick's Dermatology*, serves on the editorial boards of *JAMA Derm*, *Cosmetic Dermatology* and *The Dermatologist*, and is the author of numerous journal articles and chapters. She is also an active member of the Greensboro Medical Society.

Jorge Ocampo Candiani, Sr., MD, PhD, IFAAD

Chairman, Dermatology Department, University of Nuevo Leon, Monterrey, Mexico
President, World Congress of Dermatology Guadalajara 2027

PANELIST | *Challenging Clinical Cases*

Dr. Ocampo Candiani is the Chairman of the Dermatology Department at the University of Nuevo Leon, Monterrey, Mexico, and the President of the World Congress of Dermatology in Guadalajara 2027. A former President of the Ibero-Latinamerican College of Dermatology (CILAD), he is an Honorary Member of the American Academy of Dermatology and has received a Presidential Citation. As the Executive Vice-President of the International Society of Dermatology (ISD) and a Board Member of the International League of Dermatological Societies (ILDS), he plays a key role in shaping global dermatological standards. Dr. Ocampo Candiani is also a member of prestigious academies, including the Mexican Academy of Sciences, the Mexican Academy of Surgery, and the National Academy of Medicine.

Jennifer Soung, MD, FAAD

*Director of Clinical Research, Southern California Dermatology Santa Ana, CA
Clinical Professor at Harbor University of California, Los Angeles*

PANELIST | Challenging Clinical Cases

Dr. Soung is a board-certified dermatologist and the director of clinical research at Southern California Dermatology in Santa Ana, CA. Dr. Soung is an expert in medical dermatology and clinical research focusing on chronic autoimmune skin diseases. She is on Clinical Faculty at Harbor University of California, Los Angeles and on the medical board of the National Psoriasis Foundation.

Neelam Vashi, MD, FAAD

*Associate Professor of Dermatology, Boston University School of Medicine
Founder and Director, Center for Ethnic Skin
Director, Cosmetic and Laser Center*

PANELIST | Challenging Clinical Cases

Dr. Vashi is a highly accomplished board-certified dermatologist and the Director of the Boston University Cosmetic and Laser Center. As the Founding Director of the Boston University Center for Ethnic Skin and an Associate Professor of Dermatology, she holds a prominent role at the Boston University School of Medicine. With a medical degree from Northwestern University and dermatology residency at NYU, Dr. Vashi is a recognized leader in both medical and cosmetic dermatology. Her extensive contributions include authoring four textbooks, numerous peer-reviewed publications, and active involvement in national and international dermatology meetings. As a key opinion leader, she has been featured in various media outlets and has received accolades for top-ranked articles in prestigious journals. Dr. Vashi's dedication extends to serving on the boards of the Skin of Color Society and the Association of Academic Cosmetic Dermatologists, contributing to dermatological education at Boston University.

RATE EACH POSTER USING THE STAR RATER ★★★★★ (1-5 stars, with 5 being the highest) located on the bottom right-hand corner of each iPoster to help us determine the winner of the "Crowd Favorite" Scientific Poster Award!

01 Rewan M. Abdelwahab, BA

Mayo Clinic School of Medicine - Rochester
A Literature Review and Guidance on Traction Alopecia Associated With Religious Head Coverings

02 Kripa Ahuja, MS

Eastern Virginia Medical School
Assessment of Secondary Primary Malignancies in Apocrine Adenocarcinoma by Racial Group

03 Yanci Algarin, BS

Eastern Virginia Medical School
The Impact of Acculturation on Skin Cancer Risk and Protective Behaviors in Hispanic Populations

04 Saira Alvi, BA

University of Missouri - Kansas City School of Medicine
Ocular Findings in Vitiligo and Recommendations for Dermatologists

05 Mharlove Andre, BA

University of Florida College of Medicine
Determinants Specific to the Development of Non-Melanoma Skin Cancer in Skin of Color Patients

06 Brandon Ansbro, BA

Northwestern University Feinberg School of Medicine
Sun Protective Behaviors by Race and Ethnicity: Analysis of National Health Interview Survey 2020

07 Alexis Arza, BS

Drexel University College of Medicine
Examining the Gaps: A Study of Student Perspectives on Dermatologic Education in Skin of Color

08 Aaron Bao, BA

Johns Hopkins School of Medicine, Department of Dermatology
Exploring HLA Alleles and Their Association With Hidradenitis Suppurativa in Diverse Skin-Types

FEATURED IPOSTER SESSION 1

09 Redina Bardhi, MD

Henry Ford Hospital, Department of Dermatology
Evaluating Color Match of Universal Tinted Sunscreens Across Skin Types

10 Madeline Brown, BS

University of Maryland School of Medicine
Investigating Disparities in Seborrheic Dermatitis Clinical Trials in the United States

11 Jordan Bui, BS

Georgetown University School of Medicine
A Systematic Review of Treatments and Formulations for Patients With Seborrheic Dermatitis and Sebopsoriasis

12 Stephanie Chan, BS

Weill Cornell Medical College
A Scoping Review: Underrepresentation of Skin of Color Images in Machine Learning and Artificial Intelligence Research of Dermatological Diseases

13 Anna Chen, BA

Memorial Sloan Kettering Cancer Center
Clinical Presentations of Skin of Color in Oncodermatology

14 Li-Chi Chen, MD, MPH

Lahey Hospital and Medical Center
Characteristics Associated With Quality of Life in African American Women With Central Centrifugal Cicatricial Alopecia: A Cross-Sectional Study

15 Dina Collins, MS

Rutgers Robert Wood Johnson Medical School
Novel Disease Activity Scale for Central Centrifugal Cicatricial Alopecia

16 Withdrawn

17 Kareena Garg, BS

Georgetown University School of Medicine
Black Patients With Hidradenitis Suppurativa Have Altered Comorbidities Compared to Commonly Reported Rates in White Patients Suggesting Multifactorial Disease Pathophysiology

18 Caroline Gonzalez, BA

Northwestern University Feinberg School of Medicine
Skin of Color Representation in Publicly Available Dermatology Database Images

19 Withdrawn

20 Tammy Gonzalez, MD, PhD

University of Miami Phillip Frost Department of Dermatology & Cutaneous Surgery
Modulation of Staphylococcus aureus Burden in Non-Atopic Chronic Itch Lesions via Skin Commensals

21 Jonathan Greenzaid, BS

Georgetown University School of Medicine
Medical School Curricular Reform Increases Images Representing Dermatologic Diseases in Patients With Skin of Color

22 Pearl E. Grimes, MD

Vitiligo & Pigmentation Institute of Southern California
A Multi-Center Trial Evaluating a Serum Comprised of Plant-Based Adaptogens Targeting Homeostasis and Skin Quality

23 Pearl E. Grimes, MD

Vitiligo & Pigmentation Institute of Southern California
Gene Expression Analysis of a Serum Comprised of Plant Adaptogens Developed To Support Skin Homeostasis

24 Karina Gullon, MD

University of Miami at Holy Cross Hospital
Experiences and Considerations Influencing the Career Choices of Academic Dermatologists

25 Patricia Guzman, BA

UTHealth Houston - McGovern Medical School
Vice and Virtue in Skin Color: Investigating Colorism in Film and Its Social Implications

26 Eran Gwillim, MD

Jackson Health System, University of Miami
The Readability of Online Skin of Color Resources Compared to DocsGPT's Readability and Adaptability

27 Withdrawn

FEATURED IPOSTER SESSION 2

28 Jasmine Hawkins, BS

University of South Carolina School of Medicine Greenville
Common Dermatologic Conditions Within American Indian and Alaskan Native Populations: A Retrospective Analysis

29 Swathi Holla, MS

Baylor College of Medicine
A Retrospective Cross-Sectional Study Assessing Demographic Reporting Trends and Participant Racial/Ethnic Diversity in Vitiligo Clinical Trials

30 Brenda Umenita (Ume) Akinniyi, MS

Georgetown University School of Medicine

*An Evaluation of Dermatologic Diagnosis Bias on Skin of Color Among Medical Students at a Single Institution***31 Brenda Umenita (Ume) Akinniyi, MS**

Georgetown University School of Medicine

*The Attitudes of Black Female Social Media Users Towards Minimally Invasive Cosmetic Procedures: A Cross-Sectional Survey***32 Brenda Umenita (Ume) Akinniyi, MS**

Georgetown University School of Medicine

*Visual Learning Equity Initiative Leads to Increased Preclinical Image Diversity: A Cross-Sectional Study***33 Bianca Ituarte, BA**University of Nebraska Medical Center,
Department of Dermatology*Hispanic/Latino Ethnic Representation in Dermatologic Clinical Trials***34 Shanelle Jackson, BS**

Michigan State University College of Human Medicine

*A Cross-Sectional Study of the All of Us Research Program on Ferritin Levels and Alopecia***35 Shivani Jain, MSc, MPhil**Louisiana State University Health Sciences Center,
New Orleans School of Medicine*Hidradenitis Suppurativa and Food Insecurity: An All of Us Research Program Analysis*

FEATURED IPOSTER SESSION 1

36 Nia James, BA

Howard University College of Medicine

*Differential TCR Gene Expression in Mycosis Fungoides: Examining Skin of Color Biospecimens From Howard University***37 Kristiana Jordan, BA**

University of California, Davis School of Medicine

*Assessment of Treatment Patterns and Clinical Features of Racially and Ethnically Diverse Pediatric Patients With Acne Vulgaris***38 Aliyah King, BA**

Faculty of Medicine, University of Ottawa

*Unveiling Sun-Safety Beliefs Among Elementary Students From Different Backgrounds***39 Erica Lin, MD**

Signature Healthcare Brockton Hospital/Beth Israel Deaconess Medical Center

*Skin Cancer in Skin of Color Organ Transplant Recipients***40 Erica Lin, MD**

Signature Healthcare Brockton Hospital/Beth Israel Deaconess Medical Center

*Skin of Color Representation in Cutaneous Squamous Cell Carcinoma Clinical Trials***41 Alice Lin, BS**

University of Pittsburgh School of Medicine

*Comparing Patient Care Models at the Birmingham Free Clinic and University of Pittsburgh Medical Center: January 2020–May 2022***42 Emily Ma, BA**

Johns Hopkins University School of Medicine

*Distinct HLA Profile Associated With Atopic Dermatitis in Diverse Skin Types***43 Drew Mack, BS**

David Geffen School of Medicine at UCLA

*Equity in Dermatology: Investigating Racial Disparities in Mortality and Healthcare Access***44 Stephanie Marin, BS**

University of California, Riverside School of Medicine

Occupational Dermatitis Among Latinx Agricultural Workers in the United States: A Scoping Literature Review

FEATURED IPOSTER SESSION 1

45 Mavra Masood, MD

Henry Ford Health

*The Efficacy of Tranexamic Acid in the Prevention and Treatment of Post-Inflammatory Hyperpigmentation: A Pilot Study***46 Withdrawn****47 Alejandra Moncayo, MPH**

SUNY Downstate College of Medicine

*Demographic Analysis of First-Line Immunotherapy and Targeted Therapy in Malignant Cutaneous Melanoma Patients Within the Veterans Affairs Cancer Registry***48 Lydiah Fridah Mpyisi, BS**

University of Missouri - Columbia School of Medicine

*Utility of the Show-Me ECHO Telementoring on the Education of Health Professions Students***49 Olivia Negris, MA**

Rush Medical College

*Early Exposure to Dermatology: Promoting Equal Opportunity for First-Year Medical Students***50 Britney Nguyen, BS**

University of California, Irvine School of Medicine

*Examining Fitzpatrick Skin Type and Gender Distribution in Vitiligo Communities on Social Media***51 Ambika Nohria, BA**

NYU Grossman School of Medicine

*Quantifying Access to JAKi Care for Alopecia Areata Patients: A Survey Study***52 Ugonna Nwannunu, BS**

Howard University College of Medicine

*A Prospective Study of the Safety and Efficacy of Radiofrequency Energy Microneedling in Skin of Color Patients With Acne Scarring***53 Ivie Obeime, DO**

Wake Forest School of Medicine

*Elastin Staining Patterns in Traction Alopecia***54 Charissa Obeng-Nyarko, MS**

University of Pennsylvania Perelman SOM & FSU College of Medicine

*GLP1 Agonist-Associated Hair Loss: Assessing Incidence of Alopecia in Patients on GLP1 Agonists for Weight Loss***55 Feyisayo Ojute, BS**

University of California San Francisco

Risk and Mortality of Skin Cancer Among Non-White Solid Organ Transplant Recipients in the United States From 2000–2022

FEATURED IPOSTER SESSION 2

56 Oluwadamilola Oke, BS

Brigham and Women's Hospital

*Anifrolumab for the Treatment of Refractory Cutaneous Lupus Erythematosus: Interim Analysis of Real-World Outcomes***57 Damilola Oladinni, MEd**

A.T. Still University School of Osteopathic Medicine

*Navigating Challenges: Opportunities for URIM Students in Dermatology Residency Matching***58 Christlene Olukoga, MD**

Indiana University School of Medicine

*The Stress in Stress-Hairstyles: A Cross-Sectional Survey***59 Sonia Onyeka, MD**

Stanford University

*A Targeted Social Media Campaign To Increase Melanoma Awareness Amongst Black Americans***60 Withdrawn****61 Max Oscherwitz, BS**

Wake Forest School of Medicine

*A Linguistic Analysis of Psoriasis Biologic Websites in English and Spanish***62 Jiwon Park, BA**

Long School of Medicine

Racial Disparities in Rosacea Diagnosis in Ambulatory Settings From 2011–2019

FEATURED IPOSTER SESSION 2

63 Jennifer Parker, MD, PhD

University of Pennsylvania School of Medicine

*Assessment of Agreement Between Self-Reported and Objective Colorimeter-Determined Fitzpatrick Skin Type: A Survey of Dermatology Professionals***64 Bianca Patel, BS, BA**

Morehouse School of Medicine

Trends in Racial Diversity in Atopic Dermatitis Clinical Trials: A Targeted Literature Review

65 Gaurav Pathak, PharmD

Rutgers Robert Wood Johnson Medical School
Characterizing Psoriasis and Associated Comorbidities in Underrepresented Patient Populations; an All of Us Database Analysis

66 Gaurav Pathak, PharmD

Rutgers Robert Wood Johnson Medical School
Demographics and Lifestyle Factors of Hidradenitis Suppurativa Patients: A Cross Sectional Analysis of the All of Us Database

67 Gaurav Pathak, PharmD

Rutgers Robert Wood Johnson Medical School
Pyoderma Gangrenosum in Underrepresented Patient Populations: An All of Us Database Analysis

68 Gaurav Pathak, PharmD

Rutgers Robert Wood Johnson Medical School
Quality of Life Assessments Utilized in Vitiligo Clinical Trials: A Review

69 Amir Pourghadiri, MSc

University of British Columbia
Trends in Skin Tone Diversity: An Analysis of a Canadian Dermatology Journal in Comparison With American Dermatology Journals

70 Kevin Puerta Durango, BS, BA

Dartmouth, Geisel School of Medicine & University of Pennsylvania, Department of Dermatology
Evaluating the Time of Onset of Adverse Events in Skin of Color Patients on Dupilumab

71 Andrea Quartey, BA

Lewis Katz School of Medicine at Temple University
Analysis of Prescribed Biologics in a Safety-Net Hospital Dermatology Department

72 Withdrawn**73 Shazli Razi, MD**

Rao Dermatology,
Jersey Shore University Medical Center
A Cross-Sectional Analysis of Fairness Cream Commercials From South Asia

74 Shazli Razi, MD

Rao Dermatology,
Jersey Shore University Medical Center
Early Effects of Diamond-Tipped Microdermabrasion Through the Lens of Line-Field Confocal Optical Coherence Tomography

FEATURED IPOSTER SESSION 2

75 Ivan Rodriguez, BS

Keck School of Medicine
Acne Keloidalis Nuchae Associated With Type 2 Diabetes Mellitus and Obesity in Latinos: A Retrospective Study

76 Claudia Sofia Roldan Rivera, BA

Northwestern University Feinberg School of Medicine
Lupus Skincare Management Needs and Barriers in Patients of Color

77 Mukta Sachdev, MD

Head of the Department of Dermatology,
Manipal Hospital, Bangalore, India
Clinically Effective Soap Bars in SOC

FEATURED IPOSTER SESSION 1

78 Bianca Sanabria, MA

Rutgers Robert Wood Johnson Medical School
Using GPT-4 To Improve Readability and Accessibility of Online Dermatology Patient Education Materials (PEMs)

79 Maria Elena Sanchez-Anguiano, BS

UC Davis School of Medicine,
Department of Dermatology
Scratching the Surface – Assessing Dermatology Inequities and Skin Cancer Risk Factors in Underserved Latine Communities in Northern California

80 Mason Seely, BS

Duke University School of Medicine
Assessing Confidence and Accuracy Diagnosing Common Skin Conditions in Darker Versus Lighter Skin Tones: A Survey Study of Duke Dermatology Residents and Faculty, Family Medicine Residents and Faculty, and Senior Medical Students

81 William D. Shipman, MD, PhD

Yale University
Efficacy of Laser Hair Removal in Hidradenitis Suppurativa: A Systematic Review

82 Emely Tejada, MS

Albert Einstein College of Medicine/Montefiore Department of Dermatology
The Discrepancy Between Private Dermatology Centers and In-Office Skin Cancer Removal in the Bronx, NY

FEATURED IPOSTER SESSION 1

83 Hannah Tolson, BS

University of Arizona College of Medicine Phoenix
Evaluating Racial and Ethnic Differences in Biologic Prescriptions for Patients With Psoriasis: A Population-Based Study

FEATURED IPOSTER SESSION 2

84 Megan Tran, BS

Warren Alpert Medical School of Brown University
Leveraging Augmented Reality for Inclusive Melanoma Prevention and Awareness Education: Insights From a Pilot Study Among Teenagers From Diverse Backgrounds

85 Mallory Von Lotten, MS

University of Alabama at Birmingham Heersink School of Medicine
A Comparative Analysis of CO2 Laser Therapy, RF Microneedling, TCA Cross, and Subcision on Post-Acne Boxcar Scarring in Skin of Color

86 Jennifer J. Watters, DPT

Indiana University School of Medicine
Addressing Disparities in Skin Cancer Through a Primary Care-Focused Educational Intervention

87 Vanessa Weir, BA

Memorial Sloan Kettering Cancer Center
Considerations for Skin Tone Measurement: Insights From Dermatology and Critical Care

88 Kirk Williams, MPH

Wayne State School of Medicine
Efficacy of the Minority Outreach for High School Students (MOHSS) Program in Addressing Racial and Ethnic Disparities in Skin Cancer Awareness and Outcomes

89 Rebecca K. Yamamoto, BS, BA

Georgetown University School of Medicine
Regional Differences in Mental Health Outcomes Among Psoriasis Patients With Skin of Color: A Population-Based Study in the United States From 2011–2021

90 Karen Yang, BS

University of California, Riverside - School of Medicine
Occupational Contact Dermatitis in Farm Workers: A Systematic Review

91 Lynna Yang, BA

Northwestern University Feinberg School of Medicine
Differences in Attitudes Towards Aging Skin Between Skin of Color and Non-Skin of Color Consumers

92 Yuying Zhang, MD

University of Massachusetts Chan Medical School
Interferon Expression in Discoid and Subacute Cutaneous Lupus Erythematosus

93 Amina Ziad, BA

Harvard Medical School
Evaluating Patients With Hidradenitis Suppurativa for Disordered Eating

94 Amina Ziad, BA

Harvard Medical School
Hair Loss and Quality of Life in Muslim American Women

**SPECIAL THANK YOU

SKIN OF COLOR SOCIETY FOUNDATION
& DERMATOLOGY FOUNDATION COLLABORATION

**DIVERSITY, EQUITY,
AND INCLUSION**

MID-CAREER AWARD

Supported by Sanofi and Regeneron Pharmaceuticals, Inc.

Promoting Innovation in Research The Diversity, Equity and Inclusion Mid-Career Award will fund the research of outstanding investigators with an established trajectory of excellence in basic, clinical, or translational science. The supported research projects are expected to yield novel results that expand the understanding of dermatological issues impacting underrepresented or underserved groups in medicine.

SKIN OF COLOR SOCIETY & NATIONAL MEDICAL
ASSOCIATION DERMATOLOGY SECTION

**DIVERSITY
IN CLINICAL RESEARCH**

MENTORSHIP PROGRAM

Supported by Bristol Myers Squibb and Johnson & Johnson

A Future With Diversity Starts Now

A DIVERSE RESEARCH WORKFORCE IS ESSENTIAL

- Develop the skills of the dermatology investigators of tomorrow
- Focus support on the underrepresented minority (URM) investigators
- Propel the career development of both the mentor and mentee
- Provide an experience that mirrors conducting industry sponsored research
- Acquire the knowledge needed to run a successful and high-quality research program at your own site
